

TO TRY TO BEAT HIS CONQUEROR

Young Corbett, Anxious to Retrieve Laurels, Will Attempt Difficult Feat.

WILL MEET NELSON TO-NIGHT

Many Believe Little Westerner Has Reached End of His Tether as Fighter.

(Special to The Times-Dispatch.) SAN FRANCISCO, Cal., Feb. 27.—When "Young Corbett" enters the ring with Battling Nelson to-morrow, he will attempt a feat no other defeated champion has ever successfully performed. He will endeavor to rehabilitate his status in boxing by beating a man who effectively placed him in the class of mediocre pugilists by practically knocking him out in thirteen rounds.

Fugitive champions of other days have tried and failed to retrieve their championship laurels from their conquerors. Will "Young Corbett" be an exception to this rule? (4) The thirty-nine out of the end of his tether as a fighter, and that several years' disappointment having left him with no other consolation, the Denver boy cannot hope to regain his lost prestige from a younger, as rugged, aggressive and conservative in his tactics as Nelson.

"Corbett," however, claims to have regained his old form, and will knock prize-fighting tradition to the winds by defeating the Battling One. He says he is strong and just as fast and clever with his hands as he was ever. Both men are known to be in good condition, and a rattling fight is expected.

Nelson laughs at "Corbett's" idea of beating him, and says that he will beat him in shorter order than he did before. Nelson is a slight favorite, at odds of 6 to 5.

ITCHING ECZEMA

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as I could I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair, I began S. S. S. doubt of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered.

F. C. NORFOLK.

1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent.

S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free.

PRIEST, CAPTAIN OF TEAM, TO PLAY SUNDAY.

Thinks Base-Ball and Religion Mix Splendidly—Corbett One of His Backers.

(Special to The Times-Dispatch.) BAYBIRD, N. Y., Feb. 27.—Base-ball and religion mix splendidly, according to the Rev. Father John J. Holman, assistant priest at the Sacred Heart Church here, who will be expected to manage the squad of ball players of the parish on Sunday.

One of those who financially will hold up the squad is the manager, Father Holman, who is a former heavy-weight champion of the prize ring. It is necessary, Corbett will be a unit in the squad, as he did for several seasons.

On the village diamond, Father Holman has dominated since he has not forgotten his eight years behind the bat as a catcher, and that he earned his money in the prize ring.

peculiarities of this group is the large number of double stars which it contains, though unfortunately most of these are not visible in a very small telescope. Those marked F and H are, however, beautiful objects even with a small glass, while the stars marked K and L are true double systems, made up of two immense suns revolving about one another.

This is the best time of the year to trace out the whole of the constellation Ursa Major, or the Great Dipper, for the giant southern half of this large group is well up in the sky. The star which in early times was used by the ancients as a test of penetrating vision.

brighter during the month. On the 1st it will look like the moon when about five days old, but by the 31st it will be a very narrow crescent.

Mercury is in the constellation Gemini in most excellent position for observation with a small sized telescope.

Saturn has passed behind the sun and cannot be seen, while Mars still rises too late in the evening and is too far from the earth to be satisfactorily observed.

LIKENESS OF POE IN BROWN UNIVERSITY

(Special to The Times-Dispatch.) PROVIDENCE, R. I., Feb. 27.—Brown University Library has recently been presented with a daguerotype of Edgar Allan Poe. It is an unbroken portrait which Poe had taken of himself when on a visit to Providence, and which he gave to his friend, Mr. William Whitman, who gave it to his friend, Mr. William Coleman.

The picture was taken in Providence by S. H. Hartshorn on November 18, 1848. Poe departed on the evening of that day for New York, after a week's sojourn in Providence, in the course of which Mr. Whitman had agreed to a conditional engagement.

BOY DEAD IN FIELD.

(Special to The Times-Dispatch.) AKARD, the fourteen-year-old son of A. D. Akard, a wealthy farmer residing six miles west of Bristol, was found dead in a field near his father's home Saturday afternoon with a revolver lying by his side. The boy is presumed killed himself but whether by accident or with suicidal intent may never be known.

The shot was fired into his mouth and passed thence through the brain. The clothing was partially burned from the body when found. The boy left home early in the forenoon with a neighbor boy, but the latter, who returned to his home at noon, claims he did not know what became of the Akard boy.
